Subj: Action Report

Ref: (a) OpNav Inst. 3480.4
(b) CinCPacflt Inst. 3480.2

1. In accordance with references (a) and (b), the following action report is furnished:

I. This vessel was detached from Task Force SEVENTY-SEVEN to accompany the USS ROCHESTER (CA-124) on a gun strike against railroad yards in Wonsan, Korea. The primary missions assigned this vessel were screening enroute to and from the objective and shore battery suppression while in the fire support area in Wonsan Harbor. The MAC KENZIE reported to the Commanding Officer of the USS ROCHESTER (CA-124) at 1649I on 16 January 1953; this Bombardment Unit then proceeded to the Wonsan approaches, arriving at 2030I the same date. The unit steamed in the vicinity of the harbor entrance for the rest of the night; after sunrise, the unit entered Wonsan Harbor and the MAC KENZIE commenced suppression fire at 0821I. Six known gun positions were taken under indirect fire during the period this vessel operated in the fire support area; in addition, one call fire mission was completed on a concrete observation post. Ninety five rounds of five inch ammunition were expended by the above firing. Firing was completed at 1304I, 17 January 1953, at which time the Bombardment Unit withdrew and re-joined Task Force SEVENTY-SEVEN at 1611I, 17 January 1953. No enemy forces were observed. No enemy opposition was encountered.

II. 1649I 16 January 1953 -- Reported to Commanding Officer, USS ROCHESTER (CA-124) and proceeded to Wonsan approaches.

2030I 16 January 1953 -- Arrived off Wonsan, Korea.

0630I 17 January 1953 -- Commenced approach to Wonsan Harbor

~~C-O-N-F-I-D-E-N-T-I-A-L~~
SECURITY INFORMATION

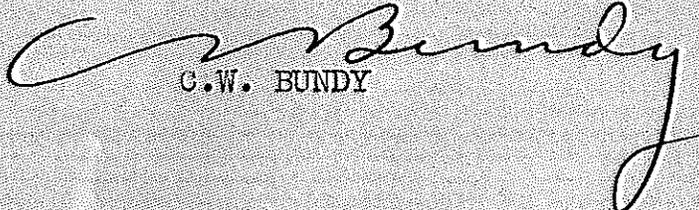

0821I 17 January 1953 -- Commenced shore battery suppression fire.
1304I 17 January 1953 -- Completed shore battery suppression fire
and commenced withdrawal.
1611I 17 January 1953 -- Rejoined screen of Task Force Seventy-Seven.

III. Performance of ordnance equipment and ammunition was satisfactory

IV. This vessel suffered no damage; damage to the enemy was not observed. However it may be noted that the shore batteries did not open fire on either the ROCHESTER or the MAC KENZIE.

V. Personnel performance was good; no casualties were suffered.

VI. This action was the first engaged in by this vessel during its present cruise. As such, it provided valuable experience and training for all hands.

Subj: Action Report, 23 February - 21 March, Wonsan, Korea

Ref: (a) OpNav Inst. 3480.4
(b) CinCPacFlt Inst. 3480.2
(c) Commander, Task Group 95.2 Operation Order 2-52, revised

During subject period this vessel served as flagship for Commander, Task Unit 95.2.1 operating in Wonsan, Korea. Friendly forces during this period included various destroyers of Task Unit 95.2.1, minesweeping and support vessels of Task Group 95.6, heavy and screening units of Task Groups 77.1 and 77.0, and United States and Republic of Korea marines serving with Task Unit 95.2.3. Prior to its departure for this duty the ship's officers were briefed by the staff of Commander, Task Force 95.

Missions of this vessel were those assigned by reference (c). The ship performed the task of maintaining control of a harbor surrounded by enemy held and strongly fortified coasts, said control being maintained by the conduct of operations listed in part II.

II Sequence of operations conducted:

23 February

1400 - Relieved USS ULVERT M. MOORE (DE-442).

2100 - Fired indirect (SFCP) mission against a truck convoy. Observed one secondary explosion.

24 February

Provided gun fire support for sweeping operations.

0900 - Directed successful SAR incident involving USS VALLEY FORGE (CVA45) pilot.

1300 - Refueled from USS MISPELLION (AO105).

1800 - Fired indirect (SFCP) mission against active 155 mm gun.

Fire evaluated excellent with rounds penetrating cave mouth.

~~C-O-N-F-I-D-E-N-T-I-A-L~~
SECURITY INFORMATION

ORIGINAL

25 February

Provided gun fire support for sweeping operations.

1400 - Fired indirect (Air Spot) mission against gun positions.
Negative results.

26 February

Provided gun fire support for sweeping operations.

1300 - Fired direct mission against locomotive. Severe damage
inflicted.

27 February

Provided gun fire support for sweeping operations.

1145 - - Fired indirect (SFCP) mission against active 155 mm gun
positions. Guns were silenced.

1400 - Fired indirect (Air Spot) mission against possible enemy radar
station. Area was well covered.

28 February

Provided gun fire support for sweeping operations.

0800 - Refueled from USS TALUGA (AO62).

1700 - Fired indirect (SFCP) mission against troops working on
gun caves. Scored one direct hit on cave mouth resulting
in partial closure and dispersion of troops.
Results classified excellent.

2000 - Fired indirect (SFCP) mission against gun position.
Results unobserved.

1 March

Provided gun fire support for sweeping operations.

0800 - Directed SAR incident involving USS CRISKANY (CVA34) pilot
whose plane crashed west of Tonsan. Wingman reported pilot
killed in plane crash.

0945 - Fired direct mission against active anti-aircraft battery.
Scored several direct hits. One secondary explosion observed.

2 March

Provided gun fire support for sweeping operations.

3 March

0030 - Fired indirect (SFCP) mission against troops working.
Troops were dispersed.

1600 - Fired indirect (SFCP) mission against troops working on
power line. Area was well covered. Troops were dispersed.
Silenced Battery.

4 March

Provided gun fire support for sweeping operations.

0900 - Provided assistance to distressed aircraft which was able to
land at K-15.

1215 - Refueled from USS GUADALUPE (AO32) and rearmed from USS
VERGO (AKA20).

1615 - Fired indirect (SFCP) mission against gun cave. Area was well
covered, **cave** was partially closed and one secondary explosion
was observed.

SECURITY INFORMATION

5 March

- 1215 - Observed seven splashes in vicinity of this vessel from enemy 105 mm gun. Engaged enemy battery and silenced same.
- 1400 - Fired indirect (Air Spot) mission resulting in destruction of three new supply buildings, damage to two others. Mission was evaluated 100 percent effective, target 50 percent destroyed.
- 1600 - Fired direct mission against gun cave. Shrapnel effect observed in cave mouth.

6 March

Provided gun fire support for sweeping operations.

- 1615 - Fired indirect (SFCP) mission against troops working on gun positions. Considerable damage inflicted in target area.
- 1645 - Directed initial stages of SAR incident involving helicopter of USS MANCHESTER (CI03) and Republic of Korea Air Force aircraft, both aircraft shot down near Bombline. Helicopter pilot and crew were rescued. Korean pilot lost.
- 1930 - Fired indirect (SFCP) mission against 90 mm gun. Two direct hits scored, considerable damage effected. Mission evaluated excellent.

7 March

- 1100 - Replenished from USS FARIBAUT (AK179).
- 1500 - Fired direct mission against buildings and storage area. Results negative.
- 2000 - Fired indirect (SFCP) mission against truck convoy. One truck destroyed.

8 March

- 0200 - Fired indirect (SFCP) mission against truck convoy. One secondary explosion observed.
- 1200 - Refueled from USS ANATIEE (AO58).
- 2100 - Fired indirect (SFCP) mission against truck convoy. One secondary explosion observed.

9 March

Provided gun fire support for sweeping operations.

- 1000 - Fired direct mission against power plant and sub stations. Severe damage inflicted. pilot
- 1300 - Directed SAR incident involving USS VALLEY FORGE (CVA45)/shot down 10 miles south of Wonsan. Wingman stated no chance of survival.
- 1620 - Fired direct mission against active 90 mm gun. Gun silenced with numerous hits in target area.
- 1930 - Republic of Korea intelligence agent wounded during bombardment of Yodo Island brought aboard for medical treatment.
- 2030 - Intelligence agent died of wounds.

10 March

Provided gun fire support for sweeping operations.

- 0900 - Fired direct mission against enemy personnel working on bunkers. Personnel dispersed.
- 1130 - Fired indirect (SFCP) mission against active 120 mm mortar. Mortars silenced.
- 1230 - Fired direct mission against active coast defense guns. Results unobserved.

SECURITY INFORMATION

~~C O N F I D E N T I A L~~
SECURITY INFORMATION

2300 - Commenced four hour illumination mission to assist friendly islands in spotting possible enemy movements from the mainland during periods of zero visibility.

11 March

1600 - Fired direct mission against personnel working on small boat. Personnel dispersed.

1700 - Fired direct mission against troops in open. Troops dispersed.

12 March

Provided gun fire support for sweeping operations.

1400 - Replenished from USS CHARRA (AKS153)

13 March

Provided gun fire support for sweeping operations.

0800 - Refueled from USS NAVASOTA (AO106).

1130 - Fired indirect (SFCP) mission against troops in open. Rounds were well placed and troops scattered.

1300 - Fired direct mission against troops in open. Estimated six enemy casualties.

1400 - Fired direct mission against active enemy mortar positions. Results unobserved.

1700 - Directed successful SAR incident involving USS ORISKANY (CV434) pilot shot down 20 miles north of Wonsan.

2000 - Fired indirect (SFCP) mission against truck convoy. Traffic disrupted.

14 March

0115 - Fired indirect (SFCP) mission against truck convoy. One truck destroyed.

0415 - Fired indirect (SFCP) mission against truck convoy. One truck destroyed, several damaged.

1100 - Fired direct mission against four sampans. Forced their return to the beach.

1630 - Fired indirect (Air Spot) mission against large group of buildings. Spotters unable to render spotting assistance.

1820 - Fired direct mission against truck convoy. Traffic disrupted.

2020 - Fired direct mission against truck convoy. Traffic disrupted.

2130 - Fired direct mission against small surface contact detected by radar. Forced contact to return to beach.

15 March

1600 - Fired direct mission against personnel working on four railway tank cars. Personnel scattered, two cars damaged, two buildings hit.

2100 - Fired indirect (SFCP) mission against truck convoy. Traffic disrupted.

two casualties.

1200 - Refueled from USS KASKASKIA (AC27).

1600 - Fired indirect (SFCP) mission against troops. Evaluated
excellent. Troops dispersed.

17 March

Provided gun fire support for sweeping operations

0130 - Fired indirect (SFCP) mission against truck convoy.
Two fires observed. Traffic disrupted.

0430 - Fired indirect (SFCP) mission against truck convoy.
Area well covered.

1020 - Fired direct mission against four railroad tank cars.
Results negative.

1930 - Fired indirect (SFCP) mission against truck convoy.
Traffic disrupted.

18 March

Provided gun fire support for sweeping operations.

1130 - Fired indirect (SFCP) mission against troops working on
gun cave. Excellent results. Troops dispersed. Cave 60 per cent
closed.

1230 - Fired indirect (SFCP) mission against supply buildings.
Two hits on large building. Numerous hits on small buildings.

1500 - Directed successful SAR incident resulting in rescue of Air
Force pilot shot down 15 miles west of coastline in heart
of enemy troop concentration.

2130 - Fired indirect mission against supply area. Results unobserved.
(Harassing and interdiction).

2220 - Fired indirect mission against warehouse. Results unobserved.
(Harassing and interdiction).

19 March

0220 - Fired indirect mission against warehouse and supply area.
Results unobserved (Harassing and interdiction).

20 March

Provided gun fire support for sweeping operations.

1400 - Rearmed from USS RAINIER (AE5).

1600 - Refueled from USS TALUGA (AC62).

21 March

Provided gun fire support for sweeping operations.

1400 - Relieved by USS PRITCHETT (DD561).

~~C-O-N-F-I-D-E-N-T-I-A-L~~
SECURITY INFORMATION

III There were no ordnance casualties during this period; all ordnance gear performed satisfactorily. A possible exception to the foregoing statement may be the performance of white phosphorous projectiles. Nothing conclusive can be stated but impact bursting qualities left much to be desired on 50 percent of rounds fired. Ammunition expended included 1227 5" projectiles as follows:

- 932 anti-aircraft common,
- 144 white phosphorous,
- 79 illumination,
- 62 V.T.

IV This vessel sustained no enemy inflicted damaged. It is difficult to accurately assess the damage inflicted upon the enemy by this vessel but based on reports of air, ground, and ship's spotters it is estimated that the following represents the minimum amount of damage inflicted:

- Trucks destroyed - - - - - 6
- Trucks damaged - - - - - 6
- Gun caves destroyed or damaged - 2
- Gun positions destroyed or damaged - - - - - 6
- Buildings destroyed - - - - - 3
- Buildings damaged - - - - - 7
- Railway cars damaged - - - - - 2
- Locomotives damaged - - - - - 1
- Power plant and substations damaged - - - - - 1
- Personnel casualties - - - - - 0

V No personnel casualties were incurred by this vessel. Ship's personnel performed adequately in every respect.

VI The following special comments are furnished for consideration:

Gunnery The SFCP frequently continued spotting the fall of shot when the corrected spots made were less than expected battery dispersion. It is recommended that:

- a) The shore fire control spotters be more thoroughly indoctrinated in the capabilities of naval batteries.
- b) The firing ship be aggressive in recommending fire for effect.

The burden of recommending fire for effect must be accepted by the firing ship because the commanche spotting procedure does not permit the SFCP to evaluate his spots in the terms of range and deflection spots at the firing ship (deflection dispersion being much less than range dispersion).

It is recommended that the task of harassing night truck traffic through the city of Wonsan be dealt with in either of three ways:

- a) SFCP spot ---- one destroyer illuminate and fire destructive mission.
- b) Air Spot ---- one destroyer illuminate and a group of aircraft attack destructively.
- c) SFCP spot --- one destroyer illuminate and a second destroyer fire destructive mission. This method would facilitate firing the combination mission with the condition III watch.

During the period of this report, the standard fire mission procedure was to fire White Phosphorous shells for SFCP spotting observed vehicle lights.

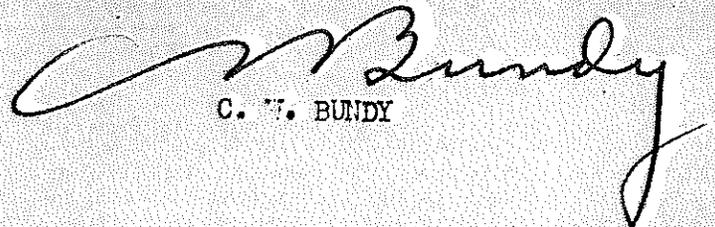

CIC Because of its dual role as a Ship's CIC and flag plot the combat information center carried an abnormally heavy work load. CIC watch personnel were directly concerned with the conduct of indirect fire missions, an unusually large volume of voice traffic, the conduct of SAR incidents, maintaining of current and accurate presentation of all small boating, and navigation. In many cases performance of certain of these tasks simultaneously overburdened existing facilities.

Communications During 27 days in Wonsan 137 classified messages totalling 20,250 groups were encrypted. The ratio of decriptions to encryptions was roughly ten to one. Communications volume provided a real test of this ship's communication capabilities.

Engineering It is considered advisable and necessary to steam with superheaters lighted off while in Wonsan to reduce the number of steam leaks and progressive erosion of existing steam leaks.

Medical Following a mild outbreak of diarrhea during the initial stages of the tour in Wonsan all drinking water was chlorinated. Although it is impossible to attribute the outbreak directly to the water it is noted that the affliction was curbed shortly after the chlorination process commenced. It is recommended that ships operating in Wonsan Harbor chlorinate all drinking water.

In General - It is considered that the period in Wonsan was a good test of the efficiency and battle effectiveness of this vessel. The task was demanding and strenuous on both men and machinery. The task permitted this vessel to conduct direct and tangible operations against the enemy, and provided all hands with a sense of accomplishment, thereby contributing to the building of morale and fibre in the ship's personnel.

Subj: Action Report, 23 February - 21 March 1953, Wonsan,
Korea

1. Forwarded.

2. The operation of the U.S.S. George K. MackENZIE (DD836) in aiding the originator to fulfill the obligations as Commander Task Unit 95.2.1 was entirely satisfactory. The functioning of the various ship's departments was at all times adequate for the situation and these more directly connected with the operation as Commander Task Unit 95.2.1, namely CIC and Radio, performed in a commendable fashion. Radio and CIC had anticipated the operation and were able to assume the additional load without undue strain. The enthusiasm of the individual men made this possible.

1. Forwarded noting in particular the comments of Commander Destroyer Division SEVENTY-TWO in paragraph 2 of his endorsement.

2. In reference to the comments on gunnery and the shore fire control parties contained in part VI of the basic report, the following remarks are submitted. There is a general tendency to over-estimate the effectiveness of 5 inch gunfire on the type of targets available in Korea. This requires that SEVP personnel and ship fire control personnel carefully screen all targets and insure that the proper weapon and the proper fire control techniques are employed to insure destruction at an economical cost.

File

DECLASSIFIED

Subj: Action Report, 15-19 April 1953

 Ref: (a) OpNav Instruction 3480.4
 (b) CinCPacFlt Instruction 3480.2
 (c) Commander, Task Group 77.1 Operation Order 2-53

1. During subject period this vessel served as a unit of Task Unit 77.1.9 operating in the vicinity of Suwon Dan, Korea. The primary function of this vessel as outlined in reference (c) was to provide an anti-submarine screen for the U.S.S. LOS ANGELES (CA 135). Secondary mission was to provide gun fire support for friendly troops operating on the Eastern flank of the battle line. Friendly naval forces in the area included the U.S.S. LOS ANGELES (CA 135), the U.S.S. EVERSOLE (DD789) and the ROKN LSSL 110. Reference (c) and Commander Task Group 95.2 Operation Order 2-52, (revised) were available for study prior to assuming this duty. Upon arrival off Suwon Dan, current information was furnished in the turnover file.

2. Sequence of operations conducted was as follows:

15 April

0730 Departed from Task Group 77.2
 1015 Arrived vicinity Suwon Dan, Korea
 1100 Turnover file delivered via helicopter
 1200 Relieved U.S.S. McCORD (DD 534). Commenced to screen U.S.S. LOS ANGELES (CA 135)

16 April

Screened U.S.S. LOS ANGELES (CA 135).
 0800 Refueled from U.S.S. TALUGA (AO 62)
 1200 Fired indirect (SFCP) mission against bunker and trenchline. Bunker damaged, trenchline cut, target area 30 percent covered.

17 April

Screened U.S.S. LOS ANGELES (CA 135).

18 April

Screened U.S.S. LOS ANGELES (CA 135).
 1730 Turned over files to U.S.S. NICHOLAS (DDE 449)

19 April

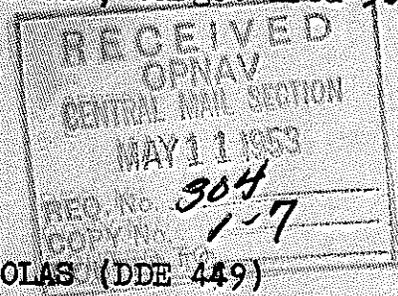

Screened U.S.S. LOS ANGELES (CA 135)
 1200 Relieved by U.S.S. NICHOLAS (DDE 449)
 1800 Detached from Task Unit 77.1.9, Rejoined screen of Task Force 77.

011277

3. There were no ordnance casualties during this period. All ordnance gear performed satisfactorily. Ammunition expended consisted of 21 five inch anti-aircraft common projectiles.

4. This vessel sustained no damage as a result of enemy action. Damage inflicted on the enemy included one bunker damaged and one trenchline cut.

5. No personnel casualties were incurred during subject period. Ship's company performed adequately in every respect.

28 April 1953

6. The following special comments are furnished for consideration.

CIC The proximity of mountainous areas made acquisition to landward difficult. Occasionally bogeys were acquired and tracked for considerable distances while flying overland, however.

IN GENERAL It is highly recommended that commanding officers make every effort to maintain timely and accurate turnover files while engaged in this type of mission. It took this command the better part of two days, or roughly 40 percent of its tour, to reclassify and bring up to date a turnover file which, when received, was marked "Current-Effective Instructions".

DOWNGRADED AT 3 YEAR INTERVALS:
DECLASSIFIED AFTER 12 YEARS
DOD DIR 5200.10

Subj: Action report, 17-19 May 1953

Ref: (a) OpNav Inst. 3480.4
(b) CinCPacFlt Inst. 3480.2
(c) Commander Task Force 77 Operation Order 2-52
(d) Commander Task Group 77.1 Operation Order 2-53

1. Commander Task Force 77 assigned this vessel to interdict the North Korean enemy main supply route in the vicinity of 40-10 North, 128-30.5 E during subject period. The primary function of this vessel, as outlined in reference (c), was to prevent repairs to cuts in the enemy's coastal rail line in the area and thereby disrupt the supply movement to the enemy front lines. No friendly units operated in the immediate area. References (c) and (d) were available for study prior to assuming this duty.

2. Sequence of operations conducted was as follows:

17 May

1400 Detached from Task Group 77.2
1900 Arrived on station
1930 Commenced interdicting target area

18 May

0400 Ceased interdiction fire
1530 Commenced direct fire mission. Numerous slides observed on RR embankment
2030 Commenced interdicting target area
2200 Armed Boat departed for point 1500 yards from target in effort to keep area under close surveillance

19 May

0034 Armed Boat reported hearing train proceeding north. Noise faded within two minutes indicating train had stopped in tunnel or had proceeded behind protective terrain south of target area
0130 Armed Boat returned
0215 Ceased interdicting target area
0230 Departed for Task Force 77
0700 Rejoined screen of Task Force 77

3. There were no ordnance casualties during this period. All ordnance gear performed satisfactorily. Ammunition expended consisted of 166 rounds of 5"/38 projectiles.

4. This vessel sustained no damage as a result of enemy action. The effectiveness of 5"/38 fire can not be evaluated. However, no day time work was conducted on the railroad track under surveillance; no trains were observed to pass over the section of track. Methods of observation utilized were: 1. Mark 25 radar watching; 2. quiet bridge-listening; 3. Close visual sea ch; and 4. Inshore small boat reconnaissance.

5. No personnel casualties were suffered during subject period. Ships company performed adequately in every respect.

~~CONFIDENTIAL~~

INSTRUCTION

OPNAV REPORT-3360-1

Attack first, then fill in this report with data that is known. When any information required by this report is not known, the appropriate space is to be left blank. Report all time GCT. Definitions in ATP-1 apply.

NAME OF SHIP MAKING THIS REPORT U.S.S. SPURGE L. HAD RINZIE (DD-636)	DATE OF THIS REPORT 12 June 1953
--	--

A. SUMMARY OF A/S ACTION

1. DATE OF ACTION (GCT) 4-5 June 1953	2. None (TASK DESIGNATION AND NUMBER)	OR	3. None (CONVOY DESIGNATION AND NUMBER)
4. BRIEF OF MISSION OF MAIN BODY In main body. Destroyers involved were assigned to Furmooa Patrol		5. LOCAL TIME ZONE LETTER & CORRECTION TO GCT I (-2)	
		6. CLOCK ERROR USED TO CORRECT GCT None	

7. LIST THE FOLLOWING IN CHRONOLOGICAL ORDER FOR THE DATUMS ESTABLISHED DURING THE ACTION AGAINST THE PARTICULAR SUBMARINE OF THIS REPORT:

ITEM	DATUM NUMBER						
	1	2	3	4	5	6	
a. DATUM	LATITUDE 2715 N						
	LONGITUDE 122 30E						
b. DATUM TIME (GCT)	041336Z						
c. DATUM COURSE	050						
d. UNIT ESTABLISHING DATUM AND NATIONALITY	TP-1 A/C U.S.						
e. METHOD OF DETERMINING DATUM: (1) SONAR (4) TORPEDO (2) RADAR (5) ECM (3) VISUAL (6) OTHER (Specify)	Radar						
f. POSITION OF UNIT ESTABLISHING DATUM WITHIN: (1) SURFACE SCREEN (2) AIR SCREEN (3) SAU (4) OTHER (Specify)	Air Patrol						
g. ASSISTING UNITS AND NATIONALITY	USS LANS USS TAUSMAN						
h. APPROACH TO DATUM	(1) TYPE APPROACH TO DATUM	Straight					
	(2) AVERAGE SPEED	18 Kts.					
	(3) SONAR SEARCH	DEGREES RELATIVE	270-090				
		SCALE (Yards)	3750				
	(4) PATROL PLAN						
	(5) Z Z PLAN						
	(6)	SINUATING	YES NO NO				
CAM USED							
(7) WEAVING	YES						
	NO	NO
